

POSITION AVAILABLE

Position Title: Assistant Professor Geology

Location: Main Campus

Supervisor: Dr. J. M. Adovasio

Dept: Geology Dept

Requirements: Completion of PhD is required at time of appt **FSLA: Exempt**

Position Classification: Faculty

Shift: First

Position Status: 10 mo Faculty Position Tenure Track

Position Overview:

Geology Dept is seeking a soft rock geologist with broad interests in the geosciences committed to teaching excellence in the liberal arts tradition. Teaching responsibilities will include introductory geology courses, Sedimentology, Stratigraphy, and GIS. A demonstrated interest and ability to also teach courses in hydrogeology and/or soils is a plus. The successful candidate will be expected to incorporate service learning in their teaching and develop a strong research program that involves undergraduates. Open opportunities exist for Great Lakes-related research as well as for collaborations with the Archaeology/Anthropology Department, the Sustainability Studies program, and the college's teaching and research programs in Taos, NM. Our class sizes are small, field-based learning is encouraged and supported, and the teaching facilities are exceptional.

Applications including a cover letter, a statement of teaching philosophy, a statement of research interests that includes how you foresee integrating undergraduates into your research, a curriculum vitae, and contact information for three referees should be sent via email to Dr. J. M. Adovasio (jadovasio@mercyhurst.edu) Review of applications will begin November 1, 2011. More information about the college may be found at: <http://www.mercyhurst.edu>

Qualified candidates should submit resumes/applications to:

hrinfo@mercyhurst.edu
