## Master of Science in Organizational Leadership

### Concentration in Sports Leadership

## WHY STUDY SPORTS LEADERSHIP?

According to the *Sports Business Journal*, the sports industry is one of the fastest growing industries in the United States with nearly \$250 billion in revenue annually. The review identifies the top five job opportunities with sports leadership being a common foundation in four of the five.

## ABOUT THE PROGRAM

The Master of Science degree in Organizational Leadership (OL) with a concentration in sports leadership is a 36-credit program designed to prepare students for leadership roles in coaching and athletics in collegiate, scholastic or professional environments. The concentration focuses on applying theoretical knowledge to the practical day-to-day leadership needs of athletic teams and players.

Designed to meet the needs and schedules of working students, the program can be completed in two years. Courses are offered in the evenings to accommodate the working professional.

Mercyhurst also offers a 15-credit graduate certificate in sports leadership.

## OL VS. MBA?

While the MBA emphasizes management and administrative functions within an organization (the primary focus being on order and consistency), Mercyhurst's Organizational Leadership Master of Science degree emphasizes professional leadership, while concentrating on vision and empowerment.

## PROGRAM PHILOSOPHY

The OL program challenges students to synthesize contemporary scholarship with insight from our service-oriented, ethically based heritage. The purpose of the organizational leadership graduate program is to inspire our students to become exemplary leaders in service to others.
