COA's are based on 2 full time semesters (9 grad credits each Fall & Spring semester) for GP and GR student types. Athletic Training has added summer half time component. They are based on 6 credit hours for all GC Programs. The COA's listed above are the normal charges incurred by most students, however, individual charges may vary based on the student's choice of housing arrangement, meal plans, program, and total number of credits enrolled each semester. Students can request a budget increase or decrease if their circumstances warrant it, including licensure fees, via a student initiated appeal with their SFS Counselor.
