Calculations for Measures

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Graduation Rate	<p>In 2019, 53 students came into the business department as first-time freshmen. In 2025, 42 students earned a business degree (graduation rate $42/53 = 79\%$). Because of the number of times students change majors from their time of their incoming cohort year (2019 in this case), the University tracks the number of incoming students per program in 2019 to the number of conferred degrees per program by 2025. As a result, some programs will have graduation rates over 100%.</p> <p>*-No students started or completed a degree in that program.</p>
