SEMESTER PAYMENT PLANS

Enrollment & FAQs

In lieu of paying the student's bill in full by the semester's bill due date, a student (or their Ally on the eBill) can sign up for a payment plan (partial payments made in intervals) via the student's eBill. The payment plan divides a student's financial obligation into interest-free installments over the semester, making financial obligations easier to manage. **Payment plans for the summer term are not available**.

Cost to Participate

- $40 nonrefundable enrollment fee per semester
- $30 nonrefundable returned payment fee per returned payment

Payment Plan FAQs

Can my payment plan dollar amount be set up for less than what I currently owe?
No, the total amount of your payment plan will automatically be set to the eBill amount you owe at the time of enrollment.

Will my monthly payment be automatically withdrawn from my account?
Yes, monthly payments are automatically deducted from the account entered at the time of enrollment.

Will I be notified before the monthly payment is processed?
Yes, the payment plan owner will receive an email 5 days before the monthly installment's due date.

Will my payment plan adjust automatically if there is a change to my financial aid or billing charges (either an increase or decrease to the bill)?
If your balance decreases due to extra payments or financial aid, your plan balance and monthly payments will be reduced. Conversely, if you incur additional charges from schedule changes, room, or board adjustments, or if your financial aid is modified, your plan balance and monthly payments will increase.
