

In the School of the Arts at Mercyhurst University, we believe in active participation in the life of the Arts through coursework, performance, exhibitions, service, & attendance at events. Most importantly, active participation calls upon a student to create, produce, and collaborate in performances and works of Music, Dance, Theatre, and Art & Design. We equip our majors with **D**iscipline, **R**esilience, **E**mpathy, and **A**rtistry to **M**ake and **S**how their works. This benefits all emerging artists as they hone their skills to meet challenges where they are and become who they want to be— whether that is a healer, creator, teacher, performer, or designer. Come enjoy the fruit of our **D.R.E.A.M.S.** at this season's performances and exhibitions.
