INTERNATIONAL STUDENT OFFICE

The International Student Office (ISO) is a one-stop shop that advises international students from the time they apply at Mercyhurst until they've completed Optional Practical Training (OPT) which is up to three years after graduation. We most often answer questions on travel, employment, and F-1 visa regulations as well as support students in applying for their social security number and their driver's license. The ISO also serves as the primary liaison between our students, academic departments, and other campus resources. Additionally, we organize cultural immersion events and host workshops that help international students navigate their life here in the United States.

Erie, Pennsylvania is located:

- 154 km from Buffalo, New York
- 163 km from Cleveland, Ohio
- 190 km from Niagara Falls
- 205 km from Pittsburgh, Pennsylvania
- 312 km from Toronto, Canada
- 592 km from Washington, D.C.
- 695 km from New York City
- 715 km from Chicago, Illinois

MASTER'S PROGRAMS AT MERCYHURST

SPECIAL EDUCATION MASTER OF SCIENCE

The Special Education program prepares students with the skills, knowledge, and practical experience to teach and provide services to students and adults with special learning or behavioral needs. Concentrations are available in Applied Behavior Analysis, Applied Disability Service in Higher Education, Autism, and English Language Learners.

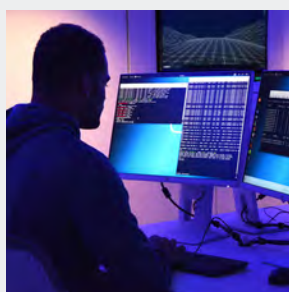

LEARNING OUTCOMES

Our Master's in Special Education is designed to give you a competitive edge, preparing you to:

- Analyze and critique educational research.
- Design single-case research proposals in APA writing style.
- Critically evaluate and apply ethical guidelines according to professional standards.
- Apply dimensions of applied behavior analysis.
- Utilize evidence-based practices and assessments in clinical settings.

RECENT GRADUATE EMPLOYMENT

- Achievement Center
- Barber National Institute
- Erie's School District
- Mercy Center of the Arts
- Special Education Consultant
- St. Benedict Education Center
- YMCA Behavioral Health
- Other county/state school districts

DATA SCIENCE MASTER OF SCIENCE

The Data Science program prepares students to collect, analyze, visualize, and communicate actionable insights for data-driven decisions in business, nonprofit, and government organizations. Data analytics can be used to maintain competitiveness, adapt business strategies, increase sales, or enhance security.

LEARNING OUTCOMES

Our Master's in Data Science is designed to give you a competitive edge, preparing you to:

- Assess, evaluate, and respond to decision-maker needs and requirements.
- Collect, clean, store, and query data from a variety of private and public data sources.
- Apply analytic techniques to provide estimates that support decision-making and action.
- Communicate actionable information and findings in easy-to-understand written, oral, and visual formats.

RECENT GRADUATE EMPLOYMENT

- Argenx
- Chevron Corporation
- ConMed Corporation
- Erie Insurance
- Everstream Analytics
- Meta (Facebook)
- PricewaterhouseCoopers
- University of Pittsburgh Medical Center (UPMC)

MASTER'S PROGRAMS AT MERCYHURST

CYBER SECURITY MASTER OF SCIENCE

The Cyber Security program capitalizes on the university's reputation as an international leader in intelligence and cybereducation to meet this growing need. This program prepares you to analyze cyberthreats to computer systems, networks, and networked devices, and protect those systems from cyberattacks.

LEARNING OUTCOMES

Our Master's in Cyber Security is designed to give you a competitive edge, preparing you to:

- Analyze various cyberthreats to individuals and organizations.
- Perform risk management for organizations.
- Recognize different risks that threaten an organization's business and make recommendations on how to manage those threats.
- Evaluate the United States and international legal, regulatory, policy, and ethical issues involved in cybersecurity.

RECENT GRADUATE EMPLOYMENT

- Amazon
- Blackbird.AI
- Dell
- IBM Security
- Lockheed Martin
- Meta (Facebook)
- National Cyber-Forensic and Training Alliance

APPLIED INTELLIGENCE MASTER OF SCIENCE

The Applied Intelligence program emphasizes the application of intelligence theory across the disciplines of national security, military, law enforcement, and competitive intelligence for business. Coursework concentrates on developing sophisticated research abilities, analytic techniques and methodologies, concise analytic writing, and effective briefing.

LEARNING OUTCOMES

Our Master's in Applied Intelligence is designed to give you a competitive edge, preparing you to:

- Appraise collected data using a variety of analytic techniques and methodologies.
- Prepare analyses in written, oral, visual, and/or multimedia formats.
- Facilitate and manage intelligence processes and practices.
- Produce research in the intelligence field.
