Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
Graduation Rate	In 2016, 82 students came into the business department as first-time freshman. In 2022, 71 students earned a business degree (graduation rate $71/82 = 87\%$). No International Business started in 2016 or graduated in 2022. Because of the number of times students change majors from their time of their incoming cohort year (2016 in this case), the University tracks the number of incoming students per program in 2016 to the number of conferred degrees per program by 2022. As a result, some programs will have graduation rates over 100%.
